

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	3 october 2026
Team ID	SWTID-2026-6064
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming is used to generate multiple possible solutions for the identified IT procurement problem. The team explores different ways to reduce manual work, avoid delays, and ensure that approved standard laptop requests are quickly assigned to the Hardware team.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Selected Problem Statement

1

Step 1: Create the Flow

Create a Flow in Flow Designer to generate a Catalog task after the service request is approved. The task will be assigned to the Hardware team with the required short description.

Step 3: Order from Service Catalog

Users place a request from the Service Catalog. After approval, the flow creates a Catalog task and assigns it to the Hardware team for configuration.
